**DETAILED ACTION**

1. This action is responsive to communications: Change of Address filed on 10/11/02.
  2. Claims 1 – 55 are pending in the case. Claims 1, 21, 41, 53, and 54 are independent.
- 

***Election/Restrictions***

3. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I: claims 8 – 11, 28 – 31, 45, and 46 directed to interface customization in class 345, subclass 744;

Species II: claims 2 – 7, 18, 22 – 27, 38, 42 – 44 directed to structured document creation in class 715, subclass 513;

Species III: claims 12, 13, 17, 19, 32, 33, 37, 39, 47, 48, and 51 directed to authentication in class 713, subclass 168;

Species IV: claims 14 – 16, 20, 34 – 36, 40, 49, 50, 52, 54, and 55 directed to storage and databases in class 707, subclass 10.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1, 21, 41, and 53 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim

Art Unit: 2176

is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
